### ***Reviews***

*A fresh e book with an all new viewpoint. It is really simplistic but unexpected situations in the 50 % from the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Most often, the most powerful images strongly communicate just one message, theme, or emotion. This book teaches readers how to take that theme or emotion they had when they first shot the image, and carry it through to the development process in Lightroom. After discussing this crucial process of bringing the photographer's intention and vision to Lightroom, duChemin first gives the readers a quick look at Lightroom's Develop module, explaining the features and settings--not only in how they work but in what aesthetic effects they have on an image. duChemin then reveals his personal process for developing images in Lightroom, as he works through 20 images, beginning with the RAW digital negative and finishing with the final, developed image ready to share. This book is not an exhaustive overview or tour of Lightroom. Instead, duChemin takes a unique approach by concentrating solely on the Develop module, the component of Lightroom where a photographer has the most powerful tools to bring their vision and voice to the image. 272 pp. Englisch.
