The book comes with a download link to our unique math manipulatives app. We are genetically encoded to learn and children are natural learners. For them the process of learning is a journey of exploration and discovery. Learning should be fun. Today we know more about how children learn than ever before. Then why is it that so many adults have a negative attitude towards maths This book reveals how through the natural process of play, games and open ended activities that allow for personal exploration and discovery, young children can gain an understanding of maths concepts generally considered too advanced for them. The program uses the most precise arithmetical model ever devised Cuisenaire Rods. The rods embrace all the learning styles and provide links to language and art. But this program is not just about maths it is about learning, specifically learning how to learn. Through interaction with the program children will acquire generic learning skills that will stand them in good stead whatever they are engaged in.
