GRIN Verlag Feb 2008, 2008. Taschenbuch. Book Condition: Neu. 214x144x5 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2007 in the subject Speech Science / Linguistics, grade: 1,7, University of Cologne (Englisches Seminar), course: Morphology, 11 entries in the bibliography, language: English, comment: Fluent language use and good command of the target language. The paper is in line with general style sheet conventions. Well-defined structure and coherent argumentation. The author shows a good understanding of the topic. The description of different models is thorough and leads up to the conclusion of the paper. Considerable amount of relevant literature. , abstract: A universal theoretical approach to inflection is just as difficult as the definition of inflection per se. Different theories have been provided over the past fifty years arguing and approaching inflection from a lexicalist or functionalist point of view. Other models that explain this linguistic process have been developed, too, as for example Distributed Morphology. In this work two approaches will receive closer attention: the functional head analysis of inflection and the Word-and-Paradigm model - two theoretical views to describe this as we shall see highly debated linguistic phenomena. The aim is to contrast and discuss only two of the theories in detail, and hence, to argue in favour of a Word-and-Paradigm approach to inflection. Examples in this work will focus on the inflection of verbs only, since in my opinion the examination of verbs from these two angles will provide the most obvious and efficient arguments in preference of the second theoretical approach. This paper is organized as follows: Section two will introduce the functional head approaches as proposed by Pollock (2006), Rivero (1990), and Speas (1990). The first two parts of this section will introduce the model for...
