Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1905 Excerpt: .parliamentary paper, with a report by Prof. Edward Hull on the coal beds of Ireland, has just been issued. There are only two districts in which there are important deposits--County Tyrone in the north and the counties of Kilkenny, Queens, and Carlow in the south. In Tyrone there are several valuable coal seams, with an aggregate thickness of about 30 feet, near the western shore of Lough Neagh. A seam 4 feet thick at Drumglass was worked formerly, but an influx of water from old workings drowned out the mine. There is but one mine now operated, and that is by a pottery company to obtain fuel for its works. Professor Hull remarks that want of enterprise and capital appears to prevent the opening of a large mineral field in this country capable of supplying fuel to the mills and factories of the surrounding country. He estimates that there are some 27,000,000 tons of coal in the Tyrone district, while the total available supply in all Ireland is put at 174,458,000 tons.--S. S. Knabenshue, Consul, Belfast, Ireland, April 7, 1905. Foreign Trade of Cuba.--The German ministry for the interior invites German manufacturers and exporters to call at its office to view samples of manufactured articles which are in demand in the markets of Cuba. The official journal of the ministry speaks of the growing sales of American goods in Cuba, and says that American fashions and styles are beginning to dominate there instead of the formerly...
