Reviews

An exceptional ebook and also the typeface applied was intriguing to read through. I have got read and i also am sure that i am going to likely to go through yet again once more in the foreseeable future. I discovered this pdf from my dad and i advised this ebook to find out.

HOME HACKING PROJECTS FOR GEEKS

O'Reilly Media, Inc, USA. Paperback. Book Condition: new. BRAND NEW, Home Hacking Projects for Geeks, Eric Faulkner, Tony Northrup, Take a geek and a PC, add one soldering iron, a home, and a copy of Home Hacking Projects for Geeks, and you'll give new meaning to the term, "home improvement." From fearless neophytes to tool-wielding masterminds, the home hacker in any geek will find new inspiration and plenty of hands-on guidance to take on a variety of home-transforming projects once relegated to the world of sci-fi. This fun new guide combines creativity with electricity and power tools to achieve cool--and sometimes even practical--home automation projects. Never again will you have to flip a light switch when you enter a room or use a key to open your front door. With a few off-the-shelf devices, some homemade hardware, and a little imagination, you can be living in your own high-tech habitat. Home Hacking Projects for Geeks shows hackers of all ability levels how to take on a wide range of projects, from the relatively small but energy-conscious automating of light switches, to building home theaters using Windows or Linux-based PCs, to more complicated projects like building home security systems that rival those offered by professional security consultants. Each project includes a conceptual diagram, a "What You Need List" and a small "Project Stats" section that describes the relative difficulty, time involved, and cost of the project. What's more, each project is a workable, practical way to improve your home--something unique that you can customize for your individual needs. The thirteen projects in Home Hacking Projects for Geeks are divided into three categories: Home Automation, Home Entertainment Systems, and Security, and include projects such as: Remotely Monitor Your Pet; Make Your House Talk; Remotely Control Your Computer's MP3 player; Create Time-Shifted FM...
