

Inland Oil Spills: Stronger Regulation and Enforcement Needed to Avoid Future Incidents: Rced-89-65

Filesize: 4.12 MB

Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Michael Spinka)

INLAND OIL SPILLS: STRONGER REGULATION AND ENFORCEMENT NEEDED TO AVOID FUTURE INCIDENTS: RCED-89-65

DOWNLOAD

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Pursuant to a congressional request, GAO assessed the adequacy of federal regulation of above-ground oil storage tanks and the federal inland oil spill removal program. GAO found that the Environmental Protection Agency s (EPA) regulations did not require oil storage facility operators to: (1) construct and test tanks using industry standards; (2) prepare responses to accidental discharges of oil onto adjacent property; or (3) design and operate storm water drainage systems to prevent oil spills. GAO also found that: (1) EPA did not have information regarding the number, age, and location of oil storage facilities and the construction and operation of tanks; (2) the EPA inspection program did not prioritize inspections according to the threat posed to the environment, and inspections were sometimes superficial and poorly documented; (3) despite numerous oil spills and other violations, 7 of the 10 EPA regions have not levied fines; (4) EPA eliminated its spill response research program in 1987 because of budget constraints; and (5) EPA did not recover the costs of monitoring cleanups conducted by private parties, even though such costs were often substantial.
