Development is an ongoing process and we have to make sure that we are dealing with it on a year-to-year basis with the same intensity. We cannot let up. We also recognize the value of early childhood education in scaffolding the learning. So we focus a lot on pre-k through 2nd grade and making sure that those skills are developed in those children who come to us with different levels of need. We have kids who come in who are reading in pre-kindergarten or at least they can recognize sounds. Then we have kids who come in who don't have a clue. So we have to make sure that we are providing them with the same resources. The data is what we use to identify those skill deficits in the students and we employ a variety of instructional strategies to support it. We look for textbooks, resource materials - everything we do is based on the data that we receive so we don't haphazardly teach. We teach by blending the art of teaching and the science of teaching together. Thank you. The prepared statement of Ms. Brandon follows: P S Y W. B, E. D. PREPARED STATEMENT OF VONNE RANDON D Good morning.
