Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).

Taylor Francis Inc, United States, 2000. Book. Book Condition: New. 297 x 297 mm. Language: English . Brand New Book. The first learning module covers the important principles of one-point lessons. The second module uses a case study based on establishing a preventive maintenance system for equipment being used by a grounds-keeping crew. Learners work together in small groups to develop a one-point lesson. The third module has learners creating one-point lessons based on conditions in their own work. As part of the tool, lessons are divided into three types: *Basic Lessons describe something team members need to know for everyday work or participation in improvement activities.*Problem Case Studies use actual examples of breakdowns, defects, and other abnormalities to illustrate what should be done everyday to prevent problems from recurring.*Improvement Case Studies describe the concepts, contents, and results of actual improvement resulting from team activities, so that similar improvements can be made in other areas. The toolkit includes: * Leader s guide* CD-ROM (Powerpoint slides, examples of One-Point Lesson, PDF files with forms and checklists, and certificates of completion)* Curriculum for three learning modules* Tests for evaluation* Reference section.
